Introduction

UCSC

The University of Colombo School of Computing (UCSC) is the pioneer in ICT education in Sri Lanka. Formed in 2002, it is an integral part of the University of Colombo and has consistently produced graduates of the highest caliber that excel in all forms of industry.

The main objective of the UCSC is to provide high quality undergraduate degree programs to students in the fields of Computer Science and Information and Communication Technology. At present, 780 internal undergraduate students are enrolled at the institution. Over the years it has been able to establish itself as the Centre of Excellence in the streams of Computer Science and Information Communication Technology among all other universities in Sri Lanka.

The Special Degree of UCSC

B.Sc. in Computer Science and B.Sc. in Information and Communication Technology

The special degree programs in Computer Science (CS) and Information and Communication Technology (ICT) at the UCSC are well recognized among the national and international academic and corporate sectors. The main focus of fourth (special) year is on research where the selected undergraduates are provided the knowledge and expertise not only in solving problems but also in thinking about problems analytically and holistically and providing solutions through research. The 12-month individual research project utilizes the knowledge students have gained in the previous years and also teaches them new skills and helps them gain valuable knowledge to place them above their counterparts in the industry.

UCSC Career Fair

The UCSC Career Fair is a good opportunity for various organizations to meet outstanding students with interest in various areas and related disciplines. At the same time, the UCSC Career Fair aims to offer students the possibility to meet face-to-face with organizations representatives, through on-campus recruiting, interviews and interactive presentations.

Correspondence regarding the UCSC Career Fair 2013 will be done in conjunction with the Professional Development Center (PDC) of the UCSC. Companies that wish to participate in this event need to confirm their participation before Friday, 11th October, 2013 by using any contact method mentioned later in this document.

In addition, all the participating companies need to register for the event by paying a registration fee of LKR 20,000 to the account of “University of Colombo School of Computing” on or before Friday, 18th October, 2013. Please note that account details are given in the “Procedure” section of this document. Companies are expected to send the payment details with a scanned copy of the deposit slip by e-mailing it to info@careers.ucsc.lk.

The registration includes a booth, complimentary lunch, morning and evening refreshments and parking for three representatives from participating companies, and free registration with Career Fair website to search student resumes.

Lists of student details with their CVs and the preferences will be provided to the companies following the confirmation of payment. The participating companies may shortlist the CVs according to their requirements and these short-listed students would be interviewed by the participating companies in the first two interview sessions on the day of the Career Fair. A third interview session will also be conducted for walk-in interviews where students would take part according to their preference.

Objectives of UCSC Career Fair 2013

- ❖ To provide the corporate sector with the opportunity to recruit highly skilled employees from a large pool of fresh graduates.
- ❖ To provide undergraduates an opportunity to start their career with a reputed organization.
