

Want to join mainstream, and be average..?

OR DO YOU HAVE THE COURAGE TO
DO TRULY GREAT WORK?

“

Success often comes to those who dare and act; it seldom goes to the timid who are ever afraid of the consequences

Nehru

“

Your work is going to fill a large part of your life, and the only way to be truly satisfied is to do what you believe is great work. And the only way to do great work is to love what you do. If you haven't found it yet, keep looking. Don't settle. As with all matters of the heart, you'll know when you find it.

*Every job is a self-portrait of the person who did it.
Autograph your code with excellence!*

If you can think,
design and plan it bright
If you can code,
debug and skillfully write
If you can test it,
stress it and ensure its right
We'll hire you,
make you even more Adroit!

AdroitLogic is a **different kind** of a start up! A place where you will have the perfect opportunity to learn and do things right, in ways that are better. We strive to excel in all aspects of quality; especially in design, code and testing. We are passionate about architecture, performance and the code that we write, and we are looking for great minds that think alike!

You will work in a small team, and directly alongside our technical leadership. Thus guaranteeing you the opportunity to shine at your best, and be reviewed and rewarded, without bureaucracy or politics.

You would work with multiple exciting and new technologies, and improve your non-technical skills such as communication and customer interaction. You will be assigned a notebook computer along with the freedom to work from home when required, without working late and long hours. You will enjoy a relaxed and homely work environment, with flexible working hours, leaving you ample time to live and enjoy your life, and fulfil your social and family commitments.

We know that when we are looking for the best out there, there ain't a lot!

So we'll give you enough opportunities and support to excel in your career, and reward you handsomely; You will also realize the benefits of joining a great start-up early on, and possibly learn many things if you want to start-up your own company some day!

“ have the courage to follow your heart and intuition. They somehow already know what you truly want to become. Everything else is secondary
